30+ YEARS EXPERIENCE

Ed Marsh

Ed Marsh is Chief Software and Electronics engineer at SL Software.
He has written software for the NHS and Petrochemical industry, along with designing circuits to monitor turbines in catalytic crackers plus many more over his 30+ year career.
Outside work, he spends a lot of time with his family and enjoys the outdoors and extreme sports.

COURSES

Web Development

HTML & CSS	Vue
Javascript	PHP/MYSQL
React	Python

Mobile App Development

Dart

Flutter SDK

React Native

Electives

UI/UX Design	Web3 - Blockchain Technology
Digital Marketing	C++
3D Modelling	

LECTURE PLAN

- We will lay the foundations within the first week, treating all the theoretical work.

- We will proceed to conduct practical training sessions for 5 weeks.

- We will then work on live projects for the remaining part of the training.

OUR GOALS

- Our courses are designed to give you enough practical experience to get started as a freelancer.

- We focus on real world examples to equip you with the skills required to land entry level remote IT jobs.

- If you have an app or product idea, taking our courses will help you get started bringing your ideas to life.
